Professional Summary

Naufal is an Entrepreneurship graduate of Universitas Brawijaya (GPA 3.76) currently completing a Data Science & Machine Learning program at Purwadhika Digital School. Naufal has data analysis and visualization experience (Excel, Python, SQL, Tableau) gained from bootcamp projects, as well as experience running an independent business. Naufal has a strong interest in data analytics and business intelligence to support business decisions. Naufal is hardworking, meticulous, a team player, and a fast learner.

Work Experience

Es SiGemoy - Cianjur | Mar 2025 - Sep 2025
Owner (es teler and alpukat kocok (avocado shake) business)
- Achieved Rp48.5 million in revenue and approximately Rp10.1 million in net profit over 7 months by selling 4,386 cups of es teler and alpukat kocok through a rented kiosk and online sales (B2C).
- Reduced raw-material waste on no-sales days through cold storage, based on daily records of sales, cost per cup, cash flow, and profit and loss in Google Sheets.
- Passed the Business Verification organized by the Department of Management, Faculty of Economics and Business, Universitas Brawijaya (Oct 2025).

Education

Universitas Brawijaya - Malang | 2022 - Jun 2026
Bachelor of Entrepreneurship, Faculty of Economics and Business | GPA 3.76/4.00
- Relevant coursework: Research Method in Business, Financial Management, Operational Management, Consumer Behavior.
- Ran the Es SiGemoy business as the basis of the undergraduate thesis.
- Non-academic activities: several committees (logistics and field operations roles), seminars, and short bootcamps.

Purwadhika Digital School - BSD | Aug 2026 - present
Data Science & Machine Learning Bootcamp
- Identified that 36.6% of service requests failed in the CBD during peak hours and 30.6% of driver shifts had no trips by analyzing 6 MySQL tables from Blue Bird (Oct-Dec 2023, about 290,000 service requests) with 1 teammate using Python and statistical tests, resulting in 7 KPI-linked recommendations.
- Built a 3-page Tableau dashboard on Superstore 2024 data, with KPI cards, filters, and parameters.
- Prepared an 8-slide executive deck (SCR framework) from a carbon emission and NYC taxi electrification analysis, covering insights and strategic recommendations.

Organizational Experience

UKM Taekwondo Indonesia Universitas Brawijaya - Malang | 2023
Inventory Section Staff and Athlete
- Built a structured inventory system by continuing the previous cohort's records (90 coded items): assigned new codes 1-190 to 190 items across 3 locations in a spreadsheet database, including 100 items that previously had no code. Contribution recognized with a certificate from the Rector.
- Ran monthly inventory counts and assessed the condition of 183 items (87 good, 64 defective, 32 broken), including 102 items with no prior condition record, identifying 96 defective or broken items.
- Won 2 first places in the M-Kyorugi category at the provincial level (East Java Provincial Taekwondo Championship and Pangdam V/Brawijaya Cup).
